

HIRE THE EXPERTS TO EVALUATE YOUR MERCHANT SERVICES PROGRAM

Acquiring Program Reviews & Managed Services

By Wimsett & Company

Our extensive industry experience in merchant processing and payment acceptance allows us to maximize a merchant services program to best meet your strategic and financial needs. We have deep expertise in a number of operational and functional areas as well as many segments and business models within the merchant processing industry.

PROGRAM REVIEW & READINESS ASSESSMENT

We conduct an expert review and detailed analysis of your existing merchant services program. This includes an in-depth financial review plus an independent SWOT analysis to identify opportunities to restructure and maximize the results of your merchant services program.

RFP & SELECTION PROCESS

We will lead a broad and robust RFP process. We believe it is very valuable to engage in a structured, third-party RFP process even if your primary objective is to simply negotiate the best deal possible with your current provider.

SUPPLEMENTAL PROGRAM MANAGEMENT SERVICES

Wimsett & Company also provides transitional and ongoing program management services. The program support which may be needed is dependent upon the decisions and direction taken during the RFP & Selection Process. These services, if needed, typically involve some form of analytical, strategic, or program oversight and assistance. Wimsett & Company and our entire staff have deep knowledge and expertise in multiple areas of merchant processing and payment acceptance including strategy, sales, sales management, products, risk, operations, financial reporting, pricing and portfolio analysis, mergers and acquisitions, and many, many more.
